## Preface

The 1981 edition of *Index to Programs and Services* includes the programs and services made available to the public by 90 federal departments, agencies and Crown corporations. Part I is arranged by organization, with each program or service assigned a number coupled with an abbreviation of the organization's name. (These abbreviations are for coding purposes only, and are not necessarily the official acronym of the department.) A subject index (page 98) guides the reader to these service descriptions by both program and page number. With this format the reader can find the information he needs either by the department or by subject.

Part II consists of addresses and phone numbers (where available) of regional, district and branch federal offices serving the public throughout Canada. Final update was 1 December 1980.

A list of nation-wide authorized bookstore agents is also included.

This book could only have been produced with the unstinting assistance and cooperation of the department, agency and corporation coordinators who provided the original material, and who worked so diligently to ensure accuracy and to meet difficult deadlines. We would like to express our appreciation and thanks for their support.

Task Force on Service to the Public  
December, 1980.

## National Museums of Canada (NMC)

### Head Office

L'Esplanade Laurier, West Tower  
300 Laurier Avenue West  
Ottawa, Ontario  
K1A 0M8

Information: Ottawa/Hull (613) 995-9832.

### NMC 1

The purpose of the museum corporation is to demonstrate the products of nature and the works of man, with special but not exclusive reference to Canada. Its policy supports activities that increase public access to the collections of Canadian museums and art galleries, and that lead to greater preservation of those collections. The National Museums Corporation incorporates Canada's four national museums in a single administration: the National Gallery of Canada (art collections, exhibitions and publications); National Museum of Man including the Canadian War Museum, (archaeology, anthropology, ethnology, history and folk culture); National Museum of Natural Sciences (botany, zoology, mineral sciences and palaeobiology); and the National Museum of Science and Technology, including the National Aeronautical Collection, (general, agricultural, industrial and communications technologies, astronomy, printing, aircraft and aviation artifacts).

### NMC 2

Canadian Conservation Institute (Ottawa): the institute provides restoration and research services, advice and skilled care to protect collections; its five mobile laboratories visit museums in all parts of the country.

### NMC 3

International program: this program coordinates the exchange of artwork and artifact exhibits with other countries.

### NMC 4

Mobile exhibits program: the museumobiles, through exhibits of artifacts and other materials, depict the geographical, archaeological, social and natural history of different regions in Canada. The museumobiles extend the museum services to smaller communities that lack ready access to the major museums of the country.

### NMC 5

Museum assistance programs: grants and technical services to museums are provided through these programs to preserve the national heritage and make it more accessible to the public.

### NMC 6

National inventory program: a computerized record is maintained of collections in museums across Canada, and includes data on over a million artifacts.

## National Museums of Canada (continued)

### NMC 7

Publications: books, technical bulletins, periodicals, journals, reports, museum bulletins, scientific papers, photos and slides are available through the publications programs of the national museums.

Information: Ottawa/Hull (613) 993-9101.

### Energy Projects (NRC 1-6)

#### NRC 1

Renewable energy: the council ensures that the technology being developed for tapping renewable sources of energy is successful and that the results of this research are available to the public. Energy Project. Inquiries: Ottawa/Hull (613) 993-3405.

#### NRC 2

Conversion of organic wastes: the council is working on the improvement of fermentation technologies for converting organic wastes into methane fuel. Energy Project. Inquiries: Ottawa/Hull (613) 993-3405.

#### NRC 3

Fossil fuels: methods are being developed for the cleaning of coal by "spherical agglomeration". Inquiries: Ottawa/Hull (613) 993-2455.

#### NRC 4

Hydraulic energy: laboratory scale tests are conducted on conversion devices for wave, tidal and river flow energy systems and include analytic and modelling techniques for hydraulic energy systems of all types. Energy Project. Inquiries: Ottawa/Hull (613) 993-3405.

#### NRC 5

Solar energy: NRC laboratories are investigating topics on solar energy ranging from the quality and quantity of sunshine to how it can be stored or converted into electricity. Energy Project. Inquiries: Ottawa/Hull (613) 993-3405.

#### NRC 6

Wind energy: studies in wind energy are primarily concerned with megawatt-scale vertical axis wind turbine generators coupled to the existing electrical grid. Joint experiments with utility companies using 50 kw vertical axis wind turbine generators are providing data on the performance of these machines in remote communities in Canada and abroad. Energy Project. Inquiries: Ottawa/Hull (613) 993-3405.

#### NRC 7

Atlantic regional laboratory: the laboratory is responsible for fundamental research into most areas of the Atlantic region's economy (steelmaking, seaweed harvesting and farming). Inquiries: Halifax (902) 429-6450.

#### NRC 8

Biomedical engineering: research is conducted in cardiovascular studies, aids to handicapped, ultrasonics, standards and rehabilitation technology. Division of Electrical Engineering. Inquiries: Ottawa/Hull (613) 993-0330.

#### NRC 9

Building codes: the council provides technical support for the National Building Code for Canada, the National Fire Code for Canada, the Measures for Energy Conservation in New Buildings, Building Standards for the Handicapped, Residential Standards, and the Canadian Plumbing Code. Division of Building Research. Inquiries: Ottawa/Hull (613) 993-9960; other offices *see Part II under* Halifax, Rogers Pass (B.C.), Saskatoon, Thompson (Man.) or Vancouver.

#### NRC 10

Chemistry: the council conducts short-term programs aimed at practical applications to the natural resource and chemical industries and long-term fundamental investigations into selected areas of scientific and technological importance. Division of Chemistry. Inquiries: Ottawa/Hull (613) 993-2330.

#### NRC 11

Computer technology: the council carries out research in the development and application of computer technology (graphic display; pattern recognition; transportation and traffic control; cardiac studies; computer video graphics; modelling; numerical control; and seismic signal processing). Division of Electrical Engineering. Inquiries: Ottawa/Hull (613) 993-2565.

#### NRC 12

Electrical engineering: computer technology is applied to the development of new electronic circuitry and devices, the transmission of electrical power and the uses of electromagnetic radiation. Division of Electrical Engineering. Inquiries: Ottawa/Hull (613) 993-1384.

#### NRC 13

Energy-efficient designs: the council investigates energy-efficient designs in building and in transport. Inquiries: Ottawa/Hull (613) 993-2365 or 993-2095.

#### NRC 14

Engineering and testing facilities: the council maintains engineering and testing facilities for research and development in transportation (marine, road, rail, pipeline, air, air cushion technology), standards and standardization in the engineering industries, computers and engineering and biological control systems. Division of Mechanical Engineering. Inquiries: Ottawa/Hull (613) 993-2424 or other office *see Part II under* Vancouver.

#### NRC 15

Fusion energy: the council has responsibility for coordinating fusion energy research in a national program, the aim of which is to establish the necessary expertise in Canada to provide fusion reactors, if and when their feasibility is demonstrated. Inquiries: Ottawa/Hull (613) 993-0810.

## National Research Council (continued)

### NRC 16

Herzberg Institute of Astrophysics: the astrophysical observatories of the NRC detect and analyze light and other emanations from the universe. Inquiries: Ottawa/Hull (613) 996-1455 (solar) or 821-2480 (meteor); for other offices *see* Part II *under* Algonquin Park, Penticton (B.C.), Saskatoon or Victoria.

## Part II

## **Part II Federal Government Offices Throughout Canada**

Part II of the *Index of Programs and Services 1981* contains a listing of all federal government offices in Canada to which members of the public have direct access. The list is broken down into the twelve provincial and territorial sections of the country, with the office addresses alphabetically listed by department within each town, also arranged alphabetically. The addresses include, wherever possible, the department's name, branch or division name, street address, postal address, postal code and telephone number.

Following the guidelines laid down by the Canadian Permanent Committee on Geographical Names, the alphabetical arrangement of town and city names is by letter: for example, Fortune comes before Fort Vermilion; Hunts Point before Huntsville. Towns beginning with Saint, St, Sainte, Ste are all interfiled alphabetically by letter, with the contractions being treated as if they were spelled out: for example, St Davids precedes Ste Anne or Sainte Anne; Sainte-Véronique precedes Saint-Ulric.

Part II of the *Index* also includes a list, by town, of the authorized bookstore agents of Government of Canada publications, see page II-273.

**Vancouver** (Area Code 604)

Vancouver telephone numbers beginning with the three prefixes, 544, 542 or 545 are government exchange numbers (GTA). For calling these numbers on the public telephone system (B.C. Tel.) use the following prefixes: GTA prefix 544 becomes 666; GTA prefix 542 becomes 732; GTA prefix 545 becomes 524. In all cases the last four digits remain the same.

## Preface

The 1982 edition of *Index to Programs and Services* includes the programs and services made available to the public by 104 federal departments, agencies and Crown corporations. Certain central agencies, such as the Privy Council Office, the Ministry of State for Economic Development and the Ministry of State for Social Development are not included here since their activities affect the general public only through other departments.

Part I is arranged by organization, with each program or service assigned a number coupled with an abbreviation of the organization's name. (These abbreviations are for coding purposes only, and are not necessarily the official acronym of the department.) A subject index preceding this section guides the reader to the service descriptions by both program and page number. With this format the reader can find the information he needs either by the department or by subject.

Part II consists of addresses and phone numbers (where available) of regional, district and branch federal offices serving the public throughout Canada. Final update was 25 November 1981.

A list of nation-wide authorized bookstore agents is also included.

This book could only have been produced with the unstinting assistance and co-operation of the department, agency and corporation co-ordinators who provided the original material, and who worked so diligently to ensure accuracy and to meet difficult deadlines. We would like to express our appreciation and thanks for their support.

## Task Force on Service to the Public (TFSP)

365 Laurier Avenue West, 20th Floor  
Ottawa, Ontario  
K1A 0S5

Canada Service Bureaux: Victoria, Vancouver, Calgary, Edmonton, Regina, Saskatoon, Winnipeg, Toronto, Montréal, Québec, Moncton (N.B.) Halifax, Charlottetown, St John's.

Information: Ottawa/Hull (613) 593-6342; 996-0131 or any Canada Service Bureau see below.

### TFSP 1

The Task Force on Service to the Public is a small resource group within the Department of Supply and Services, whose function is to assist federal departments to improve the quality of government service, to foster better communication between the citizen and the public service, to make it easier for people to deal with government, and to create an awareness of government programs and services available in Canada.

### TFSP 2

Government of Canada Information Bank: to improve public access to government services the Task Force on Service to the Public is producing a Telidon information bank of current information on a vast range of government activities. Access to the data bank is available through Telidon terminals in the Canada Service Bureaux and their itinerant services (see TFSP 4), through terminals in unmanned carrels located in public buildings throughout the country and through various other Telidon information retrieval systems.

### TFSP 3

Telephone services: the Task Force is introducing a blue pages section to public telephone directories, with government listings organized by program or service so that a knowledge of the organizational complexities of government is no longer necessary for users to find the office they need. Toll-free lines to the most commonly-called government offices are also being provided so that all Canadians will have equal access to government services. The Task Force is organizing throughout Canada the government telephone referral system that has already been established in several provinces; this system enables a caller to phone a single number for information about services offered at any level of government, municipal, provincial or federal.

### TFSP 4

Canada Service Bureaux: in 14 cities throughout Canada, the Task Force has walk-in service bureaux whose staff assists citizens in gaining access to federal government services and programs: they provide printed material and application forms, and on any question requiring interpretation or judgement, put the inquirer in touch with the right source of information. Eight itinerant inquiry offices travel on regular schedules to offer similar services to smaller communities.

### **Delivery services (CP 1)**

#### **CP 1**

Bulk mail: bag service is available if an individual or firm receives volumes of mail too great to be placed in a regular lock box or if no box is available.

Certified mail: proof of delivery service is available for letters and parcels mailed to addresses within Canada.

C.O.D. (cash on delivery) ensures that the customer pays the amount due for merchandise when delivery is made within Canada.

Lock box: mail delivery is available to numbered, locked compartments.

Redirected mail: mail is redirected for individuals and firms that have moved or changed addresses.

Registered mail is the most secure mail system available: a receipt is issued at time of mailing, a record is kept of the article while in the post, and a signature is obtained from addressee, or representative, before delivery is completed: protection for loss exists in the form of indemnity coverage. Special delivery: mail receives priority handling at destination.

#### **CP 2**

Federal government forms: most post offices serve as a distribution outlet for federal government application forms for passports, family allowances, old age security pensions, refunds of federal excise tax on gasoline, and individual income tax returns.

#### **CP 3**

Free and special rates: letters to the Governor General, Parliamentary Library, senators and members of Parliament are free. Under certain circumstances free or special rates are available for the mailing of educational films, library books and literature for the blind.

#### **CP 4**

Intelpost, a service offered by Canada Post in conjunction with CNCP Telecommunications and Teleglobe Canada, provides facsimile transmission of printed material via microwave between 8 Canadian centres and via satellite to New York, Washington, London (U.K.), Berne and Amsterdam. Intelpost centres are located at main postal facilities in Halifax, Ottawa, Toronto, Montréal, Winnipeg, Edmonton, Calgary and Vancouver. Inquiries: Main post office in any of the previously listed cities.

## **Canada Post (continued)**

### **Mail classes (CP 5)**

#### **CP 5**

First class: mail is sent at the regular postal rate by the fastest scheduled transportation.

Second class: this service is available to publishers for the mailing of newspapers and periodicals.

Third class: this service is available for printed material and householder mailings, greeting cards and small parcels weighing up to 500 grams.

Fourth class: this service is available to firms and individuals wishing to send parcels and quantity items at a lower rate than first class delivery: items are moved by truck or train and include parcels weighing between 500 grams and 16 kilograms.

#### **CP 6**

Mail insurance: domestic mail insurance coverage is available for first, third and fourth class items mailed in Canada for delivery in Canada, against loss in transit. There is no damage insurance available for fragile or perishable articles.

#### **CP 7**

Money orders: funds up to the amount of \$200 may be transferred through the mails in the form of money orders.

#### **CP 8**

Postpak is a business service for moving goods at one time, at a bulk rate to one destination.

#### **CP 9**

Priority post: a premium courier-like delivery service is available on a contractual basis to business mailers. The next-day service is available door to door or to and from post offices, almost anywhere in Canada and around the world (International Priority Post). The materials are transmitted in special blue and orange bags and bypass the normal mail stream flow.

#### **CP 10**

Prohibited mail: it is illegal to send in the mail dangerous, toxic, explosive and flammable substances; quickly decayable matter; intoxicating liquors; obscene or immoral matter. Some normally prohibited items may be mailed if in a container approved by the Post Office.

#### **CP 11**

Telepost, provided by Canada Post and CNCP Telecommunications combines telex and letter mail delivery for same or next-day delivery in major centres. Messages may be sent through nearest CNCP message office or via telex. Public opinion messages: an extension of telepost, this service enables citizens to send their thoughts on current public issues to MPs and senators, via brief electronic mail messages. Such messages are limited to 15 words, cost less than a regular telegram or telepost message and may be sent by calling any CNCP public message office. The dictated message will be delivered the next day.

#### **CP 12**

Philatelic programs: about 250 suggested topics are considered annually for the 30 to 50 new stamps issued each year. Design and subject matter are reviewed by a committee of experts. For selection criteria and suggestions for new issues write to: Stamp Advisory Committee, Canada Post, Ottawa, Ontario K1A 0B1.

Information on new postage stamp issues and mail orders can also be obtained from: The Philatelic Service, Canada Post, Ottawa, Ontario K1A 0B5.

### Energy (EMR 1-35)

#### EMR 1

Canada Oil and Gas Land Administration (COGLA): established through the combination of the previous Resource Management Branch of EMR and elements of the Non-Renewable Resources Branch of the Department of Indian and Northern Affairs, COGLA is the prime federal regulatory agency responsible for activity associated with the exploration and production of mineral and energy resources in the Canada Lands, an area comprising 6.5 million square kilometres in the Arctic and the eastern and western offshore, and 3.9 million square kilometres in the Yukon and Northwest Territories. The organization will administer the provisions of the Canada Oil and Gas Regulations, the Canada Oil and Gas Production and Conservation Act and the proposed Canada Oil and Gas Act, which amends the Oil and Gas Production and Conservation Act. Inquiries: Ottawa/Hull (613) 993-3760.

#### EMR 2

Canadianization: Canadian ownership charge: beginning 1 May 1981, the federal government implemented a special Canadian ownership charge on sales of petroleum products and natural gas to cover most of the \$1.46 billion costs of Petro-Canada's acquisition of Petrofina Canada Inc. The charge, which will be in effect until the purchase is completed, will cover 85% of the acquisition costs. Energy Sector, Economic and Policy Analysis Sub-Sector, Canadianization Branch. Inquiries: Ottawa/Hull (613) 993-3760.

#### EMR 3

Coal and peat/identifications/estimates: the Geological Survey is responsible for the identification and evaluation of coal and peat, and estimates their quality, quantity and distribution. Inquiries: Ottawa/Hull (613) 996-1330.

#### EMR 4

Coal and peat resources and reserve appraisal/research and development: CANMET investigates the quality and recoverability of coal and peat resources. It is responsible for the research and development of technologies pertaining to coal mining and beneficiation, coal carbonization, gasification and liquefaction. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4029 or 995-4039.

**Energy, Mines and Resources Canada (continued)**

**EMR 5**

Coal policy: the development of federal coal policies is the responsibility of the Coal Branch, Energy Sector, which also provides information and conducts research studies on coal and related matters. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 6**

Coal utilization package: this program is designed to increase the contribution of coal to the energy supply of Atlantic Canada by supporting the development of new coal-utilization technologies up to the commercial application stage that will permit coal to be consumed in more efficient and environmentally benign ways. The federal government will provide \$50 million over the period 1980-83, with provision for a further \$100 million in 1984-85, to support the development and commercialization of new coal-utilization technology. It is envisaged that the bulk of this funding will go to demonstrating fluidized-bed combustion in a commercial-scale generating station in Cape Breton, where it would directly displace oil-fired capacity. Energy Sector, Coal Branch. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 7**

Electrical policy and power: the Energy Sector maintains electrical statistics including information on electrical policy, pricing, utilities, tidal power and generating stations. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 8**

Electrical power generation: utility off-oil fund: this program is designed to reduce substantially the amount of oil used to generate electricity in the Atlantic region and, consequently, reduce current and future electricity costs. An immediate priority is to replace existing oil-fired capacity with lower-cost alternatives. The Utility Off-Oil Fund has been established to finance, on a grant basis, up to 75% of the cost of environmentally-acceptable conversions of oil-fired electricity plants to coal. This offers the opportunity for immediate conversions at plants such as Coleson Cove in New Brunswick and Tufts Cove in Nova Scotia. The program will consist of a small number of individual agreements with provinces and utilities covering all relevant specifics of each coal conversion (financing, technology, environmental control measures, intellectual property, etc.). Energy Sector, Compensation and Non-Petroleum Energy Sub-Sector. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 9**

Electrical power generation: Lower Churchill Development Corporation: this joint federal government-Newfoundland organization was created to promote implementation of the next hydroelectric project of the Lower Churchill Development Corporation, thereby displacing oil-fired electricity in Newfoundland and extending the future supply of hydro power to the region. A choice between the two major projects—Gull Island and Muskrat Falls—has not yet been made. Energy Sector, Electrical Energy Branch. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 10**

Emergency oil inventories: the emergency oil-stock-building program is designed to increase oil storage in Canada to ensure supplies. Discussions are to be held with the refining industry to examine ways and means of implementing a voluntary program of stock-building. Alternative options for establishing a 20-million barrel emergency oil stock consisting largely or entirely of crude oil, most of which would be held in eastern Canada, include:  
a) government-owned and administered emergency stocks in underground storage facilities (1981 to 1983);  
b) a mandatory minimum inventory program requiring industry to build inventories, administered by the government, but with industry acquiring the oil and facilities and carrying the majority of the costs of implementation;  
c) a voluntary industrial program. Energy Supplies Allocation Board. Inquiries: Ottawa/Hull (613) 996-3559.

**EMR 11**

Emergency oil stocks/inventory: the Energy Sector studies the adequacy of industry reserves to meet supply shortfalls and to meet the need for additional oil stocks. Petroleum Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351 ext. 247.

**EMR 12**

Energy commodity value: comparative data are available on the commodity value of natural gas and its competitive position in relation to other fuels. Petroleum Sub-Sector Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351 ext. 226.

**EMR 13**

Energy and mineral resources/identification and estimates: the Geological Survey is responsible for the identification and evaluation of non-renewable energy (oil, gas, coal and uranium) and mineral resources, as well as provision of estimates of their quality, quantity and distribution. Geological Survey of Canada. Inquiries: Ottawa/Hull (613) 995-4089.

Energy Supplies Allocation Board: this Board is responsible for devising plans for allocating and rationing oil and gas in the event of an emergency, in co-operation with private industry and the provincial governments. These plans are in addition to an emergency oil inventory program. If a supply emergency occurred, the Board, after receiving permission from Parliament, could control the transportation of crude oil and petroleum products, decide the amounts to be allocated to users and set prices. Energy Supplies Allocation Board. Inquiries: Ottawa/Hull (613) 996-3559.

Heavy oil development: fossil fuel research, development and demonstration: the Government of Canada and the Government of Saskatchewan have established this program to encourage research, development and demonstration of new technologies that facilitate expanded production and use of Saskatchewan's fossil fuel resources, with particular emphasis on heavy oil and lignite coal. Canada and Saskatchewan have agreed to share equally the costs of the program, which will be administered by Saskatchewan under the general direction of a federal-provincial management committee.

**EMR 18**

Heavy oil: Sask-Can Centre for Heavy Oil Technology: as part of the National Energy Program, the Government of Canada has offered to fund jointly with Saskatchewan a five-year, \$50 million heavy oil research and development program. One aspect of negotiations is a proposal to establish a centre, to be called the Sask-Can Centre for Heavy Oil Technology. Subject to negotiations, the Centre will study and develop methods for the enhanced recovery of heavy oils from reservoirs and deposits in Saskatchewan; methods of handling, processing and transporting heavy oils; methods of protecting the natural environment from heavy oil activities. It will also disseminate and apply knowledge, techniques and practices developed as is technically feasible in Saskatchewan, and, subject to appropriate conditions, elsewhere in Canada and beyond. Energy Sector, Petroleum Sub-Sector, Petroleum Resource Branch. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 19**

Natural gas pricing: information regarding the pricing system for natural gas is available from the Natural Gas and Transportation Branch, Petroleum Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 20**

Nuclear policy: information pertaining to national uranium, thorium and nuclear potential, as well as advice and guidance on uranium, nuclear policy and related matters, is available from the Energy Policy Sector. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 21**

Nuclear energy technology/research and development: research is conducted on radioactive ores to develop uranium extraction and chemical analysis techniques and to investigate materials for heavy water plant construction. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4064.

**EMR 22**

Oil and gas resources/research and development: CANMET investigates oil and gas resources by characterization of the chemical and physical properties of unprocessed bitumens and heavy oils, and the conversion products from bitumens, heavy oils and coal. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 996-1330.

**EMR 23**

Oil and gas taxation: natural gas and gas liquids tax: under the National Energy Program, this is one of several tax measures the federal government has implemented to redress the revenue imbalance with the producing provinces and the industry and to carry out initiatives under NEP. Financial and Fiscal Analysis Branch, Economic and Policy Analysis Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 24**

Oil and gas taxation: the petroleum compensation charge was established in 1974 to compensate importers of foreign crude oil for the difference in the price of domestic and imported oil. Petroleum Pricing and Compensation, Petroleum Pricing and Compensation Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 996-2611.

**EMR 25**

Oil and gas taxation: petroleum and gas revenue tax: the Petroleum and Gas Revenue Tax Program establishes a tax on net operating revenues, minus a 25% resource allowance, related to the production of oil and gas. The taxation rate has been set at 16%. Financial and Fiscal Analysis Branch, Economic and Policy Analysis Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 26**

Oil and gas technology/research and development: research is conducted in oil sands mining and processing methods, and refining processes for bitumen and heavy oils. Technology Information Division, CANMET. Inquiries: 995-4075 or 996-4570 ext. 144.

**EMR 27**

Oil and gas transportation: the Energy Sector monitors and assesses oil and natural gas transportation; oil and natural gas pipeline proposals; liquefied natural gas (LNG) and oil tanker proposals. Petroleum Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351 ext. 274.

**EMR 28**

### EMR 31

Petroleum Incentives Board: a Board is to be established under the proposed Energy Security Act to administer the Petroleum Incentives Program and take up duties currently performed by the Petroleum Compensation Board, namely administering the petroleum import compensation program and the reference and blended price system. Energy Sector, Petroleum Incentives Program. Inquiries: Ottawa/Hull (613) 996-5524.

### EMR 32

Petroleum Incentives Program (PIP): this program is primarily designed to assist Canadians in petroleum and gas exploration and development. Benefits depend on Canadian ownership rate, area and type of undertaking. An applicant for an incentive can be a corporation, partnership, trust or individual. Energy Sector, Petroleum Prices and Compensation Sub-Sector, Petroleum Incentives Program. Inquiries: Ottawa/Hull (613) 996-2611.

### EMR 33

Petroleum Monitoring Agency: this agency of EMR reports semi-annually on the state of the oil and gas industry, particularly sources of funds, uses of funds, cash flow, financing of investments, and gross production of crude oil, natural gas and natural gas liquids. The PMA is also charged with determining the Canadian Ownership Rate of companies applying for exploration and development incentives. Petroleum Monitoring Agency. Inquiries: Ottawa/Hull (613) 996-4444.

### EMR 34

Petroleum refinery technology: information is provided on the Canadian Refining System, refining technology and the abilities of Canadian refiners to meet present and projected demands for petroleum products. Petroleum Sub-Sector, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9351 ext. 220.

### EMR 35

Uranium mining and processing: CANMET monitors the development of Canada's uranium resources and provides annual assessments of ore reserves, existing productive capacity and the technical feasibility of potential uranium mines. Technology information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4075.

## Energy conservation and renewable resources (EMR 36-65)

### EMR 36

Arctic community demonstration: this program will develop and finance a demonstration of enhanced conservation and renewable energy systems in a selected Arctic community with the intention of reducing as far as economically justifiable the reliance of that community on oil. A total of \$10 million will be provided from 1980-81 to 1984-85. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

### EMR 37

Arctic housing standards: energy conservation standards for Arctic housing, taking into account climate conditions, energy supplies and costs, and future housing requirements, will be developed in conjunction with the government of Québec, Newfoundland, the Yukon and Northwest Territories and will apply to all federally-funded and insured housing units constructed in these areas. A committee will be established involving representatives of the involved provinces and territories, as well as Energy, Mines and Resources, Indian and Northern Affairs, Department of Public Works and Canada Mortgage and Housing Corporation, to develop detailed terms of reference for analyses of possible standards to be included. Conservation and Renewable Energy Branch. Inquiries: Conservation and Renewable Energy Office, Ottawa/Hull (613) 995-9447.

### EMR 38

Atlantic Energy Conservation Investment Program (AECIP): part of the National Energy Program, AECIP is designed to accelerate energy conservation by private enterprise in Newfoundland, Nova Scotia, Prince Edward Island and New Brunswick. The five-year program provides incentive grants to encourage private sector industrial, commercial, or institutional organizations to proceed with significant and desirable energy conservation projects. In support of eligible projects this program will pay up to 50% of the capitalized costs of materials and equipment, installation and project management. Individual grants will not generally exceed \$4 million. There is no limit to the number of projects per applicant, which could receive support over the five-year life of the program.

### EMR 39

Buildings and residential: super energy-efficient housing demonstration: this program will provide a total of \$6 million to construct approximately 1000 super energy-efficient housing units across the country over a three-year period from 1981-82 to 1983-84. Funding available under the program (average \$6000 per house) must be used to assist in the design and evaluation of houses constructed in the demonstration projects, to train builders and trades people in the appropriate techniques involved in construction. Details of the program will be developed in co-operation with provincial governments and representatives of the home building industry. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

### EMR 40

Canadian Home Insulation Program (CHIP): with the announcement of the National Energy Program, 28 October 1980, the Conservation and Renewable Energy Branch of Energy, Mines and Resources has now assumed policy and program responsibility for CHIP. The transfer date for financial matters was 1 April 1981. Through a contractual agreement CMHC will continue to process CHIP applications and issue the cheques to householders. The CHIP grants of up to a maximum of \$500 are available to householders with houses built before 1961 in most provinces. In Newfoundland, however, houses built before 1 September 1977 are eligible for the grant. In Nova Scotia, Prince Edward Island, the Yukon and the Northwest Territories, houses built before 1 January 1977 are eligible. The grant covers the cost of insulating materials up to \$350 and \$150 for one-third the cost of labour. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447 or nearest regional office of the Conservation and Renewable Energy Branch or CHIP regional office (CMHC) see Part II.

### EMR 41

Canada Oil Substitution Program (COSP): part of the National Energy Program, COSP provides Government of Canada grants to homeowners and small businesses to help meet the costs of converting their heating systems from oil to more plentiful domestic energy sources. COSP is a 10-year program, a major objective of which is to reduce the use of oil to less than 10% of total energy use in residential space and water heating. There are two parts to COSP: COSP operates through gas and electric utilities to provide grants towards conversions to natural gas and electricity in regions where supply is available. The program also is designed to assist those who convert to energy sources other than gas and electricity, such as wood, solar heating or propane. COSP provides taxable grants covering half the eligible costs of materials and labour for conversion of the heating system, up to a maximum grant of \$800 for single-family residences (including single, detached houses; semi-detached or row houses where each unit has its own heating system; mobile homes, which have their own heating systems; and units of multiple-unit buildings where each unit has its own heating system).

COSP grants may be obtained also for conversions by businesses and by non-profit organizations, churches, school boards, hospitals, homes for the aged, and libraries. COSP applies to conversions undertaken on or after October 1980, and before 31 December 1990. The date of conversion to be eligible for COSP is the date equipment was installed and ready for use, normally the date of inspection. Canada Oil Substitution Program. Inquiries: Conservation and Renewable Energy Offices see Part II, or call Ener\$ave toll-free at 1-800-267-9563 (in B.C. call 112-800-267-9563; in the Northwest Territories and Yukon call collect 613-995-1801; in Ottawa/Hull call 995-1801).

Canertech: this new Canadian alternate energy Corporation, established to further enhance the supply of renewable energy, will focus on supporting commercial production of renewable energy and conservation technology. As a provider of venture capital, CANERTECH will support enterprises that produce leading technological hardware for sale at home and abroad. It may also enter into other shared ventures, or undertake commercial production independently. Where necessary in order to further these activities, the Corporation will carry out research, development and demonstrations. The Corporation has been established initially as a wholly-owned subsidiary of Petro-Canada. Inquiries: Winnipeg (204) 949-1160.

### EMR 43

Conservation and Renewable Energy Development and Demonstration Program: federal-provincial cost-sharing agreements provide funds to undertake projects in the development and demonstration of renewable energy sources and conservation measures. The agreements aim at developing new technologies, products and services. Any Canadian business may apply if undertaking a project aimed at increasing energy efficiency and contribution to national energy and industrial policies. Conservation and Renewable Branch Inquiries: Ottawa/Hull (613) 995-9447.

### EMR 44

Energy conservation: data bases: an inventory of significant energy research, development and demonstration projects in Canada is publicly available on a full-text retrieval computer system composed of three parts: the Energy Projects data base (ENG) including information on projects from the Federal Office of Energy Research and Development inventory; conservation and renewable energy demonstrations (both federal and federal/provincial); federal grants and some private, provincial and International Energy Agency projects. A calendar of energy conferences, seminars and other events is available as an ENC data base; and descriptions and contacts for federal and provincial government programs in energy and energy-related data bases are available as an ENP base. The data base network allows every university in Canada, provincial departments in every province and many federal departments immediate access to the ENG data base. Inquiries: Ottawa/Hull (613) 238-3499.

### EMR 45

Energy conservation technology/research and development: energy conservation is investigated as it relates to conventional fuel combustion processes, new combustion processes, energy recovery and energy storage. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 996-1330.

**Ener\$ave:** information on energy conservation and renewable energy: the Ener\$ave Advisory Service is a national information centre responsible for promoting home energy conservation and substitution of oil with other forms of home heating. Located in Ottawa, its principal services include offering a free computerized analysis of a householder's insulation requirements and operating the HEATLINE. Information is also available on renewable energy forms such as solar, biomass, wind, geothermal, tidal and ocean energy, small-scale hydroelectric power, and new technologies such as heat pumps. The HEATLINE is a toll-free telephone advisory service that responds to general and technical questions on home energy conservation and the Canada Oil Substitution Program. Inquiries: call HEATLINE toll free at 1-800-267-9563 (in B.C. call 112-800-267-9563; in the Northwest Territories and Yukon call collect 613-995-1801; in Ottawa/Hull call 995-1801) or write to: Ener\$ave Advisory Service, P.O. ### EMR 47

**Forest industry renewable energy (FIRE):** Fire is a capital cost-sharing program to encourage the substitution of such biomass fuels as wood, municipal waste, peat and agricultural products for purchased energy. Financial incentives are provided to convert existing facilities, or to install new facilities, utilizing biomass fuels, and thus reducing the dependence on non-renewable resources. Contributions of up to 20% of capital costs will be provided for approved projects. \$288 million will be provided between 1981 and 31 March 1986. Industries, institutions and all other organizations willing to provide energy production facilities in the form of heat and electricity using biomass residues in place of energy produced from non-renewable fuel sources may apply. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

### EMR 48

**Government facilities retrofit program for Crown-owned buildings:** the purpose of this program is to implement capital intensive, cost-effective energy conservation measures to reduce energy consumption in federal government buildings. This is to be achieved through three main initiatives: 1) implementation of restrictive measures for the control of environmental systems; 2) implementation of improved routine preventive maintenance of installed building systems; 3) the conducting of energy audits and analyses leading to retrofit of building enclosures and installed electrical mechanical systems. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

### EMR 49

**Hydrogen energy/research and development:** information on the production of hydrogen by the electrolysis of water is available. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4075 or 996-4570 ext. 144.

### EMR 50

**Industrial energy management program:** this co-operative program among the Canadian Manufacturers Association, CREB and the 16 Industry Task Forces is designed to assist all manufacturing companies, regardless of size, to reduce energy costs by providing technical information, training sessions and related advice. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

### EMR 51

**Industry and commerce: national energy audit program:** this program will assist industrial and commercial establishments to identify areas of energy waste and to plan and implement corrective measures. The federal government will provide funds over a three-year period between 1981 and 31 March 1984 to be applied on the basis of a cost-sharing ratio with the provinces. This program will be implemented through federal/provincial programs aimed at encouraging energy conservation in industry and commerce, and institutions. Industrial and commercial businesses will be eligible for on-site energy audits and follow-up consultant advice grants. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull 995-9447.

### EMR 52

**Industry and commerce: national energy bus program:** the federal government and participating provinces provide a free service to industry and business to identify energy waste and opportunities to reduce energy consumption and costs. By means of mobile, computer-equipped vehicles, on-site plant audits are conducted to analyse energy use patterns, and recommendations are offered on possible corrective measures. The program is implemented by federal-provincial cost-sharing agreements. Program administration is the responsibility of the provinces. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

### EMR 53

**Industry: district heating:** this program is devoted to the study of potentially economic district heating systems; funding is also provided to conduct detailed engineering designs of sites suited to the implementation of district heating systems in the Atlantic Region. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

### EMR 54

**Industry and commerce: task forces:** low cost energy conservation initiatives: there is increased development of the activities of the Industrial Task Forces in undertaking studies on sectoral energy conservation potential. The Commercial Sector Task Force holds workshops and seminars and conducts studies to improve awareness of energy conservation opportunities in the commercial sector. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

**Energy, Mines and Resources Canada (continued)****EMR 55**

Municipal energy management program: to assist Canadian communities in hiring full-time energy managers, funding is available to pay the first year salaries of about 900 municipal energy managers contingent upon agreement by the municipalities to continue funding for at least one additional year. The program is expected to increase energy savings in three main areas: 1) municipal energy management of municipal buildings, vehicle fleets, street lighting, water and sewage treatment; 2) review of services, by-laws and municipal planning to analyse relevant regulations with the view to promote energy savings, and 3) community involvement by providing guidance to community organizations to promote conservation. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

**EMR 56**

Renewable energy/information, general information is provided on renewable energy including biomass, solar and wind power. Conservation and Renewable Energy Branch, Energy Sector. Inquiries: Ottawa/Hull (613) 995-9447.

**EMR 57**

Research and development: energy conservation and renewable energy: as part of the National Energy Program, a total of \$325 million is available for energy research and development in the areas of new and conventional energy sources, new liquid fuels and conservation. Inquiries: Ottawa/Hull (613) 995-9447.

**EMR 58**

Solar: accelerated demonstration program: a National Energy Program initiative, the Program of Accelerated Demonstration of Solar Domestic Water Heating is designed to assess the overall feasibility of residential water heating using solar energy, specifically in an application involving the mass production and installation of solar technology. The program also provides a valuable source of support for the developing Canadian solar industry. More than 800 systems are to be installed in new and existing homes specified in nine selected projects across Canada. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

**EMR 59**

Transportation: alternative fuels research and development: an initiative of the National Energy Program, funding of up to \$100 million will be available for research and development of new liquid fuels between 1981 and 1983. The government expects research funds from Canadian industries and provincial governments to supplement this initiative. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

**EMR 60**

Transportation: automobile workshops and seminars: funds are available each year between 1980 and 1985 to assist automobile driver associations and other organizations to conduct workshops, seminars and demonstrations concerning energy-conserving driving and operating techniques. The program will be complemented by a study on attitudes and awareness of fuel conserving measures related to automobiles. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

**EMR 61**

Transportation: motor vehicle fuel consumption standards: legislation is being introduced to enforce fuel consumption standards for new motor vehicles. The legislation will require self-certification by manufacturers, with a moderate government compliance testing program. It will also provide a framework for detailed study of standards for beyond 1985 and the inclusion of standards for light vans and trucks. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

**EMR 62**

Transportation: propane vehicle conversion program: taxable federal grants of \$400 are offered for conversion of commercial and agricultural vehicles to propane as a motor fuel. The grant applies to new propane road vehicles and to the conversion of gasoline or diesel-fuelled road vehicles to operate on propane or propane/diesel. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

**EMR 63**

Transportation: federal propane motor fuel demonstration: this program is designed to demonstrate the use of propane as a motor fuel with a motor vehicle fleet. The federal government proposes to have at least 8000 vehicles powered by propane in 1985 by offering fleet owners up to \$400 for each vehicle converted to propane. The program will offer public information on fuel consumption and costs, propane vehicle maintenance, propane carburation equipment and financial savings realized by conversion, as well as the supply and distribution of propane. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

**EMR 64**

Transportation: ride-sharing centre: this \$125 000 a year program will establish a ride-sharing centre in Montréal as a pilot project. This commuter energy conservation initiative includes van-pooling and car-pool activities. The eventual expansion of the program to add new centres to the grid depends largely on the level of funding from both provincial and federal governments. Conservation and Renewable Energy Branch. Inquiries: Ottawa/Hull (613) 995-9447.

Geographical names: information on geographical names is available from the Secretariat, Canadian Permanent Committee on Geographical Names. Inquiries: Ottawa/Hull (613) 992-3892.

**EMR 83**

Geological dating of rocks: the Geological Survey is responsible for the dating of consolidated and surficial materials as an aid to correlation of strata. Inquiries: Ottawa/Hull (613) 995-4089.

**EMR 84**

Geological maps/sales: inquiries regarding the sale of geological maps, Ottawa/Hull (613) 995-4342.

**EMR 85**

Geological surveys and research: the Geological Survey provides data on the nature and magnitude of past and present processes that effect the evolution of the landscape; information on the formation of igneous and metamorphic rocks through field and laboratory studies (petrology); data for maps and reports describing Canada's bedrock features; and data on Canada's surface deposits for land use planning, engineering construction, environmental management and regional development; and data, technology and expertise needed for the safe and effective use of terrain; research on soil stability, transportation corridors, waste disposal, pipelines and landslides. Inquiries: Ottawa/Hull (613) 995-4089.

**EMR 86**

Geophysical surveys: geophysical surveys are carried out from aircraft to prepare maps useful for mineral exploration. Geological Survey of Canada. Inquiries: Ottawa/Hull (613) 995-4270.

**EMR 87**

Geosciences: exploration and development information: the Canada Centre for Geoscience Data co-ordinates the identification and indexing of information resources located in provincial, federal, university and other public agencies, maintains and updates a national reference file, and provides services to public information agencies. Public documents produced by the Geological Survey of Canada and Earth Physics Branch are included. Canada Centre for Geoscience Data. Inquiries: Ottawa/Hull (613) 992-9550.

**EMR 88**

Land subdivision system/federal: the Legal Surveys Division is responsible for the procedures used to subdivide and designate Canadian lands for right-granting purposes. Legal Surveys Division, Surveys and Mapping. Inquiries: Ottawa/Hull (613) 995-4118.

**EMR 89**

Land survey records/federal: the Surveyor General of Canada has custody of survey records and documents of Indian reserves, national parks and territorial and offshore lands. Copies of these records are available to the public. Legal Surveys Division; Surveys and Mapping. Inquiries: Ottawa/Hull (613) 995-4481.

**EMR 90**

Land surveys/federal: the Legal Surveys Division carries out surveys of Indian reserves, national parks and territorial and offshore lands to establish rights for oil, gas, minerals, surface rights, fee-simple ownership, leases and rights-of-way. Legal Surveys Division, Surveys and Mapping. Inquiries: Ottawa/Hull (613) 995-4356.

**EMR 91**

Library services: six libraries provide bibliographic and computer-based information services to EMR personnel, other federal departments, academic and research institutions and the general public. The collections include 8000 journals, half a million bound volumes, as well as scientific reports, maps, images and other information formats. Inquiries: Ottawa/Hull CANMET 995-4132; Earth Physics 995-5558; Geological Survey 995-4151; Remote Sensing 995-1210; Surveys and Mapping 995-4071; Mineral and Energy Sectors 995-9466.

**EMR 92**

Mapping/control survey markers: the Geodetic Survey establishes and maintains a network of control survey markers to provide precise geographical location points for use in mapping Crown and territorial lands. Geodetic Survey Division, Surveys and Mapping Branch. Inquiries: Ottawa/Hull (613) 995-4421.

**EMR 93**

Maps: over-the-counter cash sales are made of departmental maps, charts and publications. Information and Sales Centre. Inquiries: Ottawa/Hull (613) 995-4510.

**EMR 94**

Maps/mail order sales: topographic and general purpose maps of Canada are available by mail order or at sales counters in major population centres. Canada Map Office. Inquiries: Ottawa/Hull (613) 998-9900.

**EMR 95**

Maps/authorization to use: authorization to reproduce topographical and geographical maps is given by the Assistant Director (Plans), Surveys and Mapping Branch. Inquiries: Ottawa/Hull (613) 995-4776.

## Energy, Mines and Resources Canada (continued)

### EMR 96

Maps/reproduction and distribution: purchases of reproduction materials of topographical and geographical maps are made from the Production Co-ordinator, Reproduction and Distribution Division, Surveys and Mapping Branch. Inquiries: Ottawa/Hull (613) 995-0314.

### EMR 97

Rock and mineral sets: representative collections of Canadian rocks and minerals are for sale to the general public. Geological Survey of Canada. Inquiries: Ottawa/Hull (613) 995-4342.

## Research and technology (EMR 98-104)

### EMR 98

Energy research and development: program design and administration: priority areas in the new research and development (R & D) expenditures in the National Energy Program are: (1) alternatives to gasoline in the transportation sector (to establish options that are technically feasible, environmentally acceptable and economically viable); (2) increased efficiency of energy use in all sectors of the economy; (3) new energy sources ranging from coal—where technology must provide the key to environmentally safe use—to hydrogen. Expenditures on R & D projects that relate specifically to the priorities of the National Energy Program are allotted by EMR through the Office of Energy R & D to managers in existing federal research organizations. They in turn contract out much of the work to Canadian industrial performers. Office of Energy Research and Development. Inquiries: Ottawa/Hull (613) 995-9488.

### EMR 99

Industrial research funding/technology transfer: Cooperative Projects with Industry (COPI) is a program directed towards the transfer of technology from federal government laboratories to industry. External Research Programs. Inquiries: Ottawa/Hull (613) 992-5265.

### EMR 100

Remote sensing: the Canada Centre for Remote Sensing (CCRS) is responsible for the acquisition and analysis of remote sensing data from aircraft and satellites to assist in the development of effective information and management systems for Canada's land and ocean resources and environment. The Centre is the nucleus of a national program involving federal and provincial government departments, industry and universities. Canada Centre for Remote Sensing. Inquiries: Ottawa/Hull (613) 995-1210; Airborne Data Acquisition Services, (613) 998-3101.

### EMR 101

Research agreements program: grants are awarded to Canadian research institutions not directly managed by the federal government, in support of proposals in engineering and the natural, physical and social sciences. External Research Program. Inquiries: Ottawa/Hull (613) 992-5265.

### EMR 102

Research and development/energy transportation: research is conducted into methods and materials for energy transportation, including coal slurries, liquid natural gas and pipeline materials. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4075 or 996-4570 ext. 144.

### EMR 103

Research and development services: minerals and energy: the Canada Centre for Mineral and Energy Technology (CANMET) conducts, sponsors and contracts applied research and development on mineral, metal and fossil fuel technology, reflecting national and regional needs, and complementing research for the private sector. The technical knowledge base is disseminated by research staff and information specialists. Laboratory facilities are also utilized in performing research projects for industry on a full or partial cost-recovery basis. A partial list of continuing studies includes: coal and mineral resource assessment, mining technology, health and safety of miners; fuel combustion and energy conservation technology; health, safety and pollution control in the mineral industries; improved recovery from oil sands and heavy oil; explosives testing; improved quality of mineral-based materials; nuclear and mineral waste disposal; improved recovery from low-grade ores; development of standards and specifications; and chemical analysis. Technology Information Division. Inquiries: Ottawa/Hull (613) 995-459.

### EMR 104

Minerals/commodity specific information: consultative service: information on mineral commodities based on domestic and foreign sources (producers, suppliers, markets, quotas and prices) is provided; non-confidential files may be viewed on the premises. Industrial Minerals Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466; industrial minerals, ext. 215; non-ferrous, ext. 286; ferrous, ext. 207.

## Minerals (EMR 105-117)

### EMR 105

Minerals inventory: consultative service: the National Mineral Inventory Division maintains records of known mineral deposits and occurrences (excluding petroleum and natural gas) throughout Canada. Some 19 000 records have been completed to date. Each record contains narrative-form summaries on the history of exploration and development, history of production, if any, and geological description of deposit; details on location, map references and bibliography are included. A computerized index/data file (MINSYS) to the Canadian mineral occurrence records is maintained. The Division also maintains current Canadian resource (reserve/production) data by deposit and occasionally publishes compilations on mineral occurrences and resources. Records are available to the public on a fixed fee per unit basis and on a cost recovery basis for computer files. National Mineral Inventory Division. Inquiries: Ottawa/Hull (613) 995-9466.

**Energy, Mines and Resources Canada (continued)****EMR 106**

Mineral industry and outlook: consultative service: the Mineral Policy Sector produces annual forecasts of industry-wide production, investment, employment, exports and imports in aid to corporations in Canada and program planning. Planning and Co-ordination Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext. 268.

**EMR 107**

Electrical policy and power: the Energy Sector maintains electrical statistics including information on electrical policy, pricing, utilities, tidal power and generating stations. Inquiries: Ottawa/Hull (613) 995-9351.

**EMR 108**

Mineral resources conservation: current information is available on conservation measures applicable to the mineral industry and recommended actions that government, industry and the public can take to conserve mineral resources. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4039.

**EMR 109**

Mineral resources/deposits/inventory and classification: CANMET studies the characteristics and probable location of mineral resources, records and classifies mineral deposits available to Canada. Minerals Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4039.

**EMR 110**

Mineral statistics: a consultative service is offered on mineral statistical problems, data collection, availability and interpretation. Statistics are compiled on mineral exploration expenditures, value of production, inventories, shipments, production of refined minerals and metal, minerals and metal prices, operating costs, trade by country, consumption by end use, employment, wages. Information Systems Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext. 267.

**EMR 111**

Mineral supply/resources and reserves/consultative service: information is provided on resource concepts, classification and terminology, reserves and additional resources, the magnitude and effectiveness of mineral exploration in Canada, and on long-range mine supply capability and ocean mining. Resource Evaluation Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext. 216.

**EMR 112**

Mineral technology/economic evaluation and application/consultative service: the Mineral Policy Sector maintains an intelligence base on mineral processing technology in use and in domestic and foreign development to aid in cost-benefit studies and in mineral forecasting. Planning and Co-ordination Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext. 168.

**EMR 113**

Mineral trade: consultative service: an information service is offered on foreign interests competing with Canadian mineral producers, foreign investment opportunities for Canadian firms, and foreign policies with respect to mineral trade. International Minerals Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext. 280.

**EMR 114**

Mineral transportation: consultation service: the Mineral Policy Sector conducts research on domestic mineral transportation costs and modes and in foreign countries to help in policy development and mineral forecasting. Planning and Co-ordination Division, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext. 268.

**EMR 115**

Mineral products/transportation technology: CANMET is responsible for the development and promotion of technology to increase transportation efficiency of minerals and mineral products. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4064.

**EMR 116**

Mining corporations: a reference and information service is offered on corporations having interest in mining; exploration, development and production of minerals. Natural Mineral Inventory, Mineral Policy Sector. Inquiries: Ottawa/Hull (613) 995-9466 ext. 237.

**EMR 117**

Mining industry/health and safety conditions: CANMET is responsible for the improvement of the safety, health and environmental conditions of the mining and extraction industries. Technology Information Division, CANMET. Inquiries: Ottawa/Hull (613) 995-4075 or 995-4064.

## Environment Canada (EC)

Head Office  
Fontaine Building  
Hull, Québec  
(Mail: Ottawa, Ontario K1A 0H3)

Regional Offices: See individual branches below.

Other Offices (including weather offices and national parks): throughout Canada.

Information: Ottawa/Hull (819) 997-2800; regional offices see Part II *under* cities listed under specific branches below; other offices and national parks see Part II *under* nearest town.

### Atmospheric Environment Service (EC 1-7)

Head Office  
4905 Dufferin Street  
Toronto, Ontario  
M3H 5T4

Regional Offices: Vancouver, Edmonton, Winnipeg, Toronto, Ville Saint-Laurent (Qué.), Bedford (N.S.).  
Information: Toronto (416) 667-4551.

#### EC 1

Atmospheric and meteorological research: the Atmospheric Environment Service carries out research and meteorological research: the Atmospheric Environment Service carries out research on LRTAP (Long Range Transport of Air Pollutants), acid rain, weather, ice, wind-wave, forecasting systems, the ozone layer, atmospheric radiation, numerical weather prediction (NWP), physics of clouds and precipitation, weather radar, weather and environmental satellite data reception and processing, atmospheric chemistry, air quality, atmospheric contaminants, man-made pollutants, wind and solar energy, environmental (atmospheric-related) aspects of northern and offshore hydrocarbon development, agro/forest/aeronautical/meteorology, meso-scale/boundary-layer meteorology and atmospheric dispersion. Inquiries: Toronto (Downsview) (416) 667-4551.

#### EC 2

Climate applications: the Canadian Climate Centre is responsible for analysis and interpretation of climatic data; for assessment of the impact of climate on national concerns such as agricultural production, industrial design, Arctic development and transportation, wind and solar energy, recreation and tourism; and for the provision of information and consultation services to users concerned with policy, planning and design, forest management and human health. Inquiries: Toronto (Downsview) (416) 667-4614.

#### EC 3

Climate services: the Canadian Climate Centre makes available climatological data, through publications, statistical abstracts, microfilm, digital data or custom computer analysis, to the general public and to specialized users such as engineers, lawyers, architects, etc. Inquiries: Toronto (Downsview): (computer products) (416) 667-4953; (publications) (416) 667-4614.

#### EC 4

Climate research: the Canadian Climate Centre provides atmospheric circulation statistics and diagnostics, and carries out research on climate modelling, carbon dioxide impacts, climate sensitivity, climatic trends, climatic variability, climate monitoring, general circulation modelling, energy budget studies, radiative-photochemical models, thermodynamic models and statistical long-range prediction. Canadian Climate Centre. Inquiries: Toronto (Downsview) (416) 667-4924.

#### EC 5

Hydrometeorological and marine applications of climate information: the Canadian Climate Centre provides products and analyses specially tailored to aid in the design and/or operation of water supply, flood control and other hydrological structures and systems. Rainfall, snowfall, snowmelt and evaporation are among the subjects receiving special attention. Advice, consultation and specialized analyses of a climatological nature concerning winds, weather and sea-state over Canadian lakes and ocean areas, are provided to the general public, and the transportation, fishing, hydrocarbon and marine or coastal engineering industries. Canadian Climate Centre. Inquiries: Toronto (Downsview) (416) 667-4617.

#### EC 6

Ice condition forecasts: information is provided on moving ice in navigable waters for those involved in marine transportation, fisheries, offshore drilling, etc. Inquiries: Ottawa/Hull (819) 996-5236.

#### EC 7

Weather services: weather observations, forecasts, warnings, consultation and advice are provided 24 hours a day for the general public and those people involved in aviation, shipping, agriculture and forest protection. Marine weather forecasts, warnings and weather observations are provided for Canadian waterways and the adjacent waters of the Atlantic, Arctic and Pacific oceans. The services of a Port Meteorological Officer are available at the larger ports. Inquiries: nearest weather office see Part II.

### Canadian Forestry Service (EC 8-9)

Place Vincent Massey  
351 St Joseph Boulevard  
Hull, Québec  
(Mail: Ottawa, Ontario K1A 1G5)

Regional Offices: Victoria, Edmonton, Sault Ste Marie (Ont.), Chalk River (Ont.), Québec (Sainte-Foy), Fredericton (N.B.), St John's.  
Information: Ottawa/Hull (819) 997-2800 or any regional office see Part II *under* cities listed above.

#### EC 8

Forest biomass research: the Canadian Forestry Service carries out research into the feasibility and technology of using forest biomass for energy.

#### EC 9

Forest protection: the Canadian Forestry Service develops methods to prevent or reduce damage caused by fire, insects and disease.

## Environment Canada (continued)

### Canadian Wildlife Service (EC 10-14)

Place Vincent Massey  
351 St Joseph Boulevard  
Hull, Québec  
(Mail: Ottawa, Ontario K1A 0E7)

Regional Offices: Delta (B.C.), Edmonton, Québec (Sainte-Foy), Sackville (N.B.).  
Information: Ottawa/Hull (819) 997-1840 or any regional office *see* Part II *under* cities listed above.

#### EC 10

Endangered species: the Canadian Wildlife Service carries out research and provides management advice on rare and endangered species and their habitats. Inquiries: Ottawa/Hull (819) 997-1095. The Service also issues permits for the importation and exportation of endangered plant and animal species. Inquiries: Ottawa/Hull (819) 997-1840.

#### EC 11

Hunting regulations for game birds: the Canadian Wildlife Service maintains regulations governing the hunting, handling and use of migratory game birds. Inquiries: any regional office *see* Part II *under* cities listed above.

#### EC 12

Migratory birds/conservation: the Canadian Wildlife Service is responsible for the protection and management of migratory birds; it carries out research and surveys on the distribution, status, population dynamics and ecological requirements of migratory birds. Inquiries: Ottawa/Hull (819) 997-2957.

#### EC 13

Wildlife interpretation programs: the Canadian Wildlife Service operates five centres for the purposes of interpretation of the land and its wildlife for the general public. These centres are located at Midland (Ont.); Percé (Qué.); Cap-Tourmente (Qué.); Webb (Sask.); and Creston (B.C.). Inquiries: any regional office *see* Part II *under* cities listed above.

#### EC 14

Habitat management: ecological/assessment: the Canadian Wildlife Service acquires and manages habitats to ensure the preservation of wildlife in Canada, and to enable its staff to carry out research, conservation and interpretation. The results of research and advice on ecology of wildlife other than migratory birds are provided by the Canadian Wildlife Service. Inquiries: Ottawa/Hull (819) 997-1095 or any regional office *see* Part II *under* cities listed above.

### Environmental Protection Service (EC 15-22)

Place Vincent Massey  
351 St Joseph Boulevard  
Hull, Québec  
(Mail: Ottawa, Ontario K1A 1C8)

Regional Offices: Vancouver, Edmonton, Toronto, Montréal, Halifax.  
Information: Ottawa/Hull (819) 997-0310 or any regional office *see* Part II *under* cities listed above.

#### EC 15

Air pollution control: the Environmental Protection Service maintains standards for air quality control in Canada by identifying and controlling potentially hazardous air pollutants; by setting air quality objectives; and by controlling emissions of air contaminants.

#### EC 16

Ecological impact control: the Environmental Protection Service conducts evaluations on the impact on the environment of proposed large scale developments such as pipeline and nuclear plant construction, and recommends operating conditions for controlling the ecological impact of such construction.

#### EC 17

Environmental contaminants control: the Environmental Protection Service lists and controls the amounts, sources, uses, losses and suppliers of existing chemical compounds identified as environmental contaminants; the Service also predicts the potential hazard of new compounds, and determines the needs for production control based on these predictions.

#### EC 18

Environmental emergencies: the Environmental Protection Service makes predictions to try to prevent environmental emergency situations such as oil spills. The Service develops contingency plans for controlling those that do occur and provides on-the-scene support in such emergencies.

#### EC 19

Ocean dumping control: under the Ocean Dumping Control Act the Environmental Protection Service issues permits to control the dumping of materials into oceans.

#### EC 20

Toxic chemicals management: this departmental program is designed to prevent or control the entry of harmful quantities of toxic chemicals to the various components of the environment—air, water, land, biota and man. Inquiries: Ottawa/Hull (819) 994-0706.

#### EC 21

Waste management: the Environmental Protection Service is responsible for the reduction of the adverse environmental effects of hazardous and non-hazardous waste and the encouragement of resource and energy conservation. Inquiries: Ottawa/Hull (819) 997-1538.

#### EC 22

Wastewater quality management: the Environmental Protection Service is responsible for the restoration, maintenance and improvement of the quality of waste water destined for inland waters, and for the maintenance of standards of wastewater usage.

### Federal Environmental Assessment Review Office (EC 23)

#### EC 23

Environmental assessment and review: the Federal Environmental Assessment Review Office carries out a program to ensure that environmental effects are taken into account early in the planning and implementation of new federal projects. Inquiries: Ottawa/Hull (819) 997-2725; Vancouver (604) 544-2431.

## Environment Canada (continued)

### Inland Waters Directorate (EC 24-26)

Place Vincent Massey  
351 St Joseph Boulevard  
Hull, Québec  
(Mail: Ottawa, Ontario K1A 0E7)

Regional Offices: Vancouver, Regina, Burlington (Ont.), Québec (Sainte-Foy), Halifax.  
Information: Ottawa/Hull (819) 997-2055 or any regional office *see* Part II *under* cities listed above.

#### EC 24

Flood control through mapping: the Inland Waters Directorate reduces the potential for future flood damage and subsequent federal compensation through a federal-provincial program of mapping and publicizing designated flood risk areas, and control of governmental expenditures in such areas.

#### EC 25

Water management/data: the Inland Waters Directorate plans and implements freshwater management programs, and prepares hydrological forecasts, carries out a systematic collection and compilation of data on water use, streamflow, water levels, water quality, groundwater, sediment, transport, snow and ice, and glaciers for the management of inland waters.

#### EC 26

Water resources/river basin management: in co-operation with the provinces, the Inland Waters Directorate plans and implements measures for the conservation, development and utilization of water resources in river basins in which there is a national interest.

### Lands Directorate (EC 27-28)

20th Floor, Place Vincent Massey  
351 St Joseph Boulevard  
Hull, Québec  
(Mail: Ottawa, Ontario K1A 0E7)

Regional Offices: Vancouver, Burlington (Ont.), Québec (Sainte-Foy), Halifax.  
Information: Ottawa/Hull (819) 997-1246 or any regional office *see* Part II *under* cities listed above.

#### EC 27

Land use policy development and co-ordination: the Lands Directorate is responsible for the co-ordination and the implementation of the federal policy on land use. It also represents Environment Canada on the Treasury Board Advisory Committee on Federal Land Management, advising on implementation of the Federal Land Management Principle.

#### EC 28

Land use/research: the Lands Directorate carries out land research and maintains an inventory of land characteristics, capability and uses. It studies land uses, land issues and problems and identifies the effects of federal policies and programs on land use. It maintains data processing systems and services in support of resources and environmental planning and management.

### Parks Canada (EC 29-31)

Head Office  
Terrasses de la Chaudière  
10 Wellington Street  
Hull, Québec  
(Mail: Ottawa, Ontario K1A 1G2)

Regional Offices: Calgary, Winnipeg, Cornwall (Ont.), Québec (Sainte-Foy), Halifax.  
Information: Ottawa/Hull (819) 997-0088 or any regional office *see* Part II *under* cities listed above.

#### EC 29

Heritage canals: Parks Canada is responsible for the operation and interpretation of historic canal systems in Canada. Inquiries: nearest regional office *see* Part II *under* cities listed above or canal offices *see* Part II *under* Chambly (Qué.), Peterborough (Ont.), St Peters (N.S.), Sault Ste Marie (Ont.), and Smiths Falls (Ont.).

#### EC 30

Historic parks and sites: Parks Canada is responsible for the preservation, restoration and interpretation of sites and structures of national historical importance throughout Canada. Admission is free to all national historic parks except the Fortress of Louisbourg (N.S.), Fort George (Ont.), Lower Fort Garry (Man.) and Fort Langley (B.C.). Admission is free to Fort Lennox (Qué.) but there is a charge for the privately owned ferry that takes visitors to the island. Inquiries: Ottawa/Hull (819) 997-0088 or any regional office *see* Part II *under* cities listed above or any national park *see* Part II *under* town nearest national park.

#### EC 31

National parks: the development, operation and protection of national parks in Canada are the responsibility of Parks Canada. Information is provided concerning national parks, including fees, regulations on pets, firearms, horseback riding, trail bikes, bicycles, snowmobiles, fires, garbage disposal, mountaineering, backpacking, hiking, camping, fishing and cross-country skiing. Inquiries: Ottawa/Hull (819) 997-0088 or any regional office *see* Part II *under* cities listed above or national parks *see* Part II *under* town nearest national park.

## Export Development Corporation (EDC)

Head Office  
110 O'Connor Street  
(P.O. Box 655)  
Ottawa, Ontario  
K1P 5T9

Regional Offices: Vancouver, Toronto, Montréal, Halifax.

Information: Ottawa/Hull (613) 237-2570; regional or other offices see Part II *under* cities listed above.

### EDC 1

Financing (medium- and long-term to foreign buyers): the Corporation facilitates medium- and long-term export financing to foreign buyers of Canadian capital goods and services. Funds are provided directly to Canadian suppliers on behalf of the foreign borrower or by a service called forfaiting, which is the purchase of credit notes payable to the Canadian suppliers, in effect providing the exporters with cash sales.

### EDC 2

Guarantees (performance and bid security): the Corporation provides 100% unconditional guarantees to banks that provide performance and bid related securities in the form of an irrevocable letter of credit issued to a foreign buyer on behalf of a Canadian exporter.

### EDC 3

Guarantees: the Corporation issues 100% unconditional guarantees to banks and other lenders who provide non-recourse financing in respect of an EDC-insured sale of capital goods sale (supplier credit), or who make loans to buyers of Canadian capital goods and services (buyer credit).

### EDC 4

Insurance (assignment of exporter's rights and obligations): while the Export Development Corporation normally will agree to pay any proceeds payable under an exporter's policy to a bank or other financial organization in order to facilitate the exporter's banking arrangements, if a bank or other financial institution will agree to purchase an insured foreign receivable from the exporter, EDC is prepared to agree to the assignment of the exporter's rights and obligations under the policy to the bank or financial institution.

### EDC 5

Insurance (consortium): Export Development Corporation insurance is available to cover individual members of an exporting consortium against a call on a performance security due to the failure to perform of one or more other members of the consortium.

### EDC 6

Insurance (export credit): Export Development Corporation credit insurance is available to cover non-payment by foreign buyers due to commercial or political events beyond the control of the seller or buyer (insolvency, default, cancellation of import or export licenses, foreign exchange blockages etc.). In certain instances cover for political risk only can be issued.

### EDC 7

Insurance (foreign investment): Export Development Corporation insurance is available to cover Canadian foreign investments against three broad political risks: inconvertibility or the inability to repatriate capital and earnings, expropriation and war or revolution.

### EDC 8

Insurance (performance security): Export Development Corporation insurance is available to cover an exporter against a wrongful call of a performance security in the form of an irrevocable letter of credit provided by the exporter's bank in favour of the buyer.

### EDC 9

Insurance (predisbursement): Export Development Corporation insurance is available to cover failure of a buyer/borrower to authorize EDC to disburse loan funds in payment for goods produced or services rendered.

### EDC 10

Insurance (surety bonds): Export Development Corporation insurance is available to cover a portion of the risk assumed by a domestic surety company providing a performance bond to a foreign buyer.

## External Affairs Canada (EAC)

Head Office  
Lester B. Pearson Building  
125 Sussex Drive  
Ottawa, Ontario  
K1A 0G2

Passport Offices: *see* program EAC 5 below.

Information: Ottawa/Hull (613) 996-9134.

### EAC 1

Canadian certificates and documents authentication: the Department authenticates or legalizes signatures on Canadian documents for use abroad (birth and marriage certificates, school and university diplomas, powers of attorney, contracts, affidavits and government documents such as patent and trade mark applications). Legal Advisory Division. Inquiries: Ottawa/Hull (613) 996-1300.

### EAC 2

Claims of Canadians against foreign governments: the Department provides assistance (including formal espousal of claims) to Canadian citizens for wrongs done to them by foreign governments and/or their agencies. Economic Law and Treaty Division. Inquiries: Ottawa/Hull (613) 996-1940.

### EAC 3

Foreign policy and international relations: the Department provides information on all aspects of Canadian foreign policy and international relations, on Canada's representatives abroad and on the representatives of other countries in Canada. Domestic Information Programs Division. Inquiries: Ottawa/Hull (613) 593-7064.

### EAC 4

International Canada-United States boundary: External Affairs, in conjunction with Energy, Mines and Resources, is responsible for maintaining, inspecting and resurveying the Canada-United States boundary and for regulations controlling construction adjacent to the boundary. International Boundary Commission. Inquiries: Ottawa/Hull (613) 995-4960.

### EAC 5

Passports: passport services are available to Canadian citizens in person or by mail from passport offices throughout Canada. Inquiries: Passport Office, Ottawa/Hull (613) 995-8481; regional passport offices *see* Part II *under* Vancouver, Calgary, Edmonton, Saskatoon, Winnipeg, Windsor (Ont.), Hamilton (Ont.), London (Ont.), Toronto, Toronto (Willowdale), Ottawa, Montréal, Québec, Fredericton, Halifax, St John's.

### EAC 6

Travel outside Canada: the Department provides consular assistance and information for Canadian citizens travelling outside Canada. Consular Operations Division. Inquiries: Ottawa/Hull (613) 996-4376.

## Farm Credit Corporation Canada (FCC)

Information: Ottawa/Hull (613) 995-9832.

**NMC 1**

The National Museums of Canada has as its purpose to demonstrate the products of nature and the works of man, with special but not exclusive reference to Canada. Its policy supports activities that increase public access to the collections of Canadian museums and art galleries, and that lead to greater preservation of those collections. The NMC incorporates in a single administration Canada's four national museums in the capital as well as a series of national programs that serve over 1 500 museums and related institutions across the country.

**The Museums (NMC 2-5)****NMC 2**

National Gallery of Canada: the National Gallery's permanent collection numbers more than 20 000 works of art, including the most important collection of Canadian art in the world. The Gallery exhibits a constantly changing selection of paintings, sculptures, prints, drawings and photographs from its collection. It also presents important exhibitions from other countries and circulates its own exhibitions throughout Canada and abroad. A varied program of lectures, films and guided tours is maintained for visitors. The Gallery also produces a wide range of publications. Inquiries: National Gallery of Canada, Elgin and Albert Streets, Ottawa K1A 0M8 (613) 992-4636.

**NMC 3**

National Museum of Man: the National Museum of Man conducts research, collects and preserves artifacts, and disseminates information in the fields of Canadian archaeology, ethnology, folk culture, and social and military history. It issues scholarly and popular publications, organizes and sustains travelling exhibitions as well as permanent displays, produces educational resource materials in various media, and provides regional and visitor programs in its two display facilities. The Canadian War Museum is a division of the National Museum of Man. Inquiries: Victoria Memorial Museum Building, Metcalfe and McLeod Streets, Ottawa K1A 0M8 (613) 992-3497; Canadian War Museum, 330 Sussex Drive, Ottawa, K1A 0M8 (613) 996-1420.

## **National Museums of Canada (continued)**

### **NMC 4**

National Museum of Natural Sciences: the National Museum of Natural Sciences maintains collections and conducts research in the fields of botany, zoology, mineral sciences and paleobiology. Its natural history displays are presented in seven permanent halls as well as in temporary and travelling exhibitions. Knowledge derived from the Museum's research and collections is made available through a variety of popular and scientific publications, educational programs, loans of specimens, films, workshops, conferences, and nature excursions. Inquiries: Victoria Memorial Museum Building, Metcalfe and McLeod Streets, Ottawa K1A 0M8 (613) 996-3102.

### **NMC 5**

National Museum of Science and Technology: the National Museum of Science and Technology collects and exhibits artifacts illustrating the discoveries of modern science and the developments of technology. Its collections are in the fields of general, industrial, agricultural and communications technology, astronomy, printing and aviation. The National Aeronautical Collection including nearly 100 aircraft, is part of the Museum of Science and Technology. The Museum's activities include temporary and travelling exhibitions, loans, air shows, steam train excursions and educational programs. Inquiries: 1867 St Laurent Blvd., Ottawa K1A 0M8 (613) 998-4566; National Aeronautical Collection, Rockcliffe Air Base, Ottawa K1A 0M8 (613) 993-2011.

## **National programs (NMC 6-10)**

### **NMC 6**

Canadian Conservation Institute (CCI): the CCI provides restoration services, research, advice, training and skilled care to protect heritage treasures in public collections. Its mobile laboratories visit museums in all parts of the country. Inquiries: Ottawa/Hull (613) 998-3721.

### **NMC 7**

Mobile Exhibits Program: the NMC's museumobiles travel to smaller communities in Canada that lack ready access to major museums. Their exhibits of artifacts and other illustrative materials depict the geographical, archaeological, natural and social history of various regions of the country. Inquiries: Ottawa/Hull (613) 998-3633.

### **NMC 8**

National Inventory Program: the National Inventory is a computerized record of museum collections across Canada, available to the entire museum community. Over 150 institutions participate in the program, and the Inventory now contains data on more than two million objects. Inquiries: Ottawa/Hull (613) 996-8501.

### **NMC 9**

International Program: the International Program facilitates international exchanges of exhibitions to and from Canada and fosters interest in international museum activities. Inquiries: Ottawa/Hull (613) 995-2943.

### **NMC 10**

Museum Assistance Programs: the Museum Assistance Programs provide financial and technical assistance to museums, art galleries and other related institutions, to increase public access to Canada's cultural heritage and to ensure the preservation of that heritage. Inquiries: Ottawa/Hull (613) 996-8504.

## **Publications (NMC 11)**

### **NMC 11**

Publications: books, technical bulletins, periodicals, journals, reports, scientific papers, photographs and slides are available through the publishing programs of the NMC.

## National Parole Board (NPB)

Head Office  
Sir Wilfrid Laurier Building  
340 Laurier Avenue West  
Ottawa, Ontario  
K1A 0R1

Regional Offices: Vancouver (Burnaby), Saskatoon, Kingston (Ont.), Montréal, Moncton (N.B.).

Information: Ottawa/Hull (613) 992-2818; regional offices see Part II under cities listed above.

### NPB 1

Conditional release: the Board oversees the conditional release of federal and certain provincial inmates (Prairies and Atlantic Provinces) from confinement into the community under varying degrees of supervision. Inquiries: Ottawa/Hull (613) 995-1308.

### NPB 2

Day parole is a limited form of parole designed to assist inmates to prepare for full parole.

### NPB 3

Pardon/federal offences: pardon may be granted under the Criminal Records Act to assist people who have been found guilty of a criminal offence but who have demonstrated their successful reintegration into society. Inquiries: Ottawa/Hull (613) 593-5275.

### NPB 4

Parole: the Board is responsible for the release of selected inmates from confinement into the community under various degrees of supervision; parole eligibility; hearings; suspension; procedural safeguards; and communications and consultations with the police.

### NPB 5

Parole/special projects: short-term projects are carried out by groups of parolees who either return to the institution periodically or who live on the project site.

### NPB 6

Parole Board decisions/review: the Board carries out internal re-examination of Parole Board decisions where parole was deferred, denied, revoked or where mandatory supervision was lifted. Inquiries: Ottawa/Hull (613) 995-1308.

### NPB 7

Temporary absence from prison: the Board may grant temporary release from prison (on either an escorted or unescorted basis) for medical, humanitarian, rehabilitative or administrative reasons.

## National Research Council (NRC)

Head Office  
Montréal Road  
Ottawa, Ontario  
K1A 0R6

Other Offices: see below under individual programs.

Information: Ottawa/Hull (613) 993-9101.

### Energy research and development (NRC 1-8)

#### NRC 1

Renewable energy: the Council ensures that the technology being developed for tapping renewable sources of energy is successful and that the results of this research are available to the public. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-3405.

#### NRC 2

Conversion of organic wastes: the Council is working on the improvement of fermentation technologies for converting organic wastes into methane fuel. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-1342

#### NRC 3

Energy-efficient designs: the Council investigates energy-efficient designs in building and in transport. Inquiries: Ottawa/Hull (613) 993-1421 or 993-2095.

#### NRC 4

Fossil fuels: methods are being developed for the cleaning of coal by "spherical agglomeration". Inquiries: Ottawa/Hull (613) 993-2455.

#### NRC 5

Fusion energy: the Council has responsibility for co-ordinating fusion energy research in a national program, the aim of which is to establish the necessary expertise in Canada to provide fusion reactors, if and when their feasibility is demonstrated. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-0810.

#### NRC 6

Hydraulic and tidal energy: laboratory scale tests are conducted on conversion devices for wave, tidal and river flow energy systems and include analytic and modelling techniques for hydraulic energy systems of all types. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 003-2417.

#### NRC 7

Solar energy: NRC laboratories are investigating topics on solar energy ranging from the quality and quantity of sunshine to how it can be stored or converted into electricity. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-2730.

## National Research Council (continued)

### NRC 8

Wind energy: studies in wind energy are primarily concerned with megawatt-scale vertical axis wind turbine generators coupled to the existing electrical grid. Joint experiments with utility companies using 50 kW vertical axis wind turbine generators are providing data on the performance of these machines in remote communities in Canada and abroad. Division of Energy Research and Development. Inquiries: Ottawa/Hull (613) 993-3405.

### NRC 9

Atlantic Research Laboratory: the laboratory is responsible for fundamental research into most areas of the Atlantic region's economy (steelmaking, seaweed harvesting and farming). Inquiries: Halifax (902) 429-6450.

### NRC 10

Biological sciences: scientists determine the structures of biomolecules and how they relate to biological functions to broaden the knowledge in the field of modern medicine. Research is being carried out on antibiotics and other drugs, and on the nature of genes to ensure that certain kinds of genetic experiments with great medical and industrial potential can proceed safely. Food scientists are studying ways of extending the storage time of meats and vegetables, and a bacteria-mediated process that converts plant wastes into methane.

### NRC 11

Biomedical engineering: research is conducted in cardiovascular studies, aids to the handicapped, ultrasonics, standards and rehabilitation technology. Biomedical Engineering Research Program. Inquiries: Ottawa/Hull (613) 993-0330.

### NRC 12

Building codes: the Council provides technical support for the National Building Code for Canada, the National Fire Code for Canada, the Measures for Energy Conservation in New Buildings, Building Standards for the Handicapped, Residential Standards, and the Canadian Plumbing Code. Division of Building Research. Inquiries: Ottawa/Hull (613) 993-9960; other offices *see* Part II *under* Halifax, Rogers Pass (B.C.), Saskatoon, Thompson (Man.) or Vancouver.

### NRC 13

Canada Institute for Scientific and Technical Information: scientific and technical information is available upon request. Inquiries: Ottawa/Hull (613) 993-1600.

### NRC 14

Chemistry: programs include the study of methods for preserving materials and prolonging their useful lifetimes, as well as the detection of materials and processes that may harm the environment. Equally important is the search for alternative sources of energy and for methods to use available resources more efficiently. These practical activities are supported by fundamental research designed to improve our understanding of nature in general and to extend our expertise in areas likely to gain prominence in the future. Inquiries: Ottawa/Hull (613) 993-2330.

### NRC 15

Computer technology: the Council carries out research in the development and application of computer technology (graphic display; pattern recognition; transportation and traffic control; cardiac studies; computer video graphics; modelling; numerical control; and seismic signal processing). Division of Electrical Engineering. Inquiries: Ottawa/Hull (613) 993-2565.

### NRC 16

Electrical engineering: computer technology is applied to the development of new electronic circuitry and devices, the transmission of electrical power and the uses of electromagnetic radiation. Division of Electrical Engineering. Inquiries: Ottawa/Hull (613) 993-1384.

### NRC 17

Herzberg Institute of Astrophysics: the astrophysical observatories of the NRC detect and analyse light and other emanations from the universe. Inquiries: Ottawa/Hull (613) 996-1455 (solar) or 821-2480 (meteor); for other offices *see* Part II *under* Algonquin Park, Penticton (B.C.), Saskatoon or Victoria.

### NRC 18

Industrial Materials Research Institute: the Council carries out research on industrial materials and techniques: corrosion, welding and joining, tribology and forming techniques. Inquiries: Montréal (514) 935-8513.

### NRC 19

Industrial research assistance program: financial assistance is provided by the Council for approved industrial research projects in Canada. The NRC will defray salaries of those researchers involved in approved projects. Inquiries: Ottawa/Hull (613) 993-0331.

### NRC 20

Mechanical engineering: the Council maintains engineering and testing facilities for research and development in transportation (marine, road, rail, pipeline, air, air cushion technology); standards and standardization in the engineering industries; computer applications, control systems and human engineering, including medical instrumentation; and manufacturing research, covering a wide range of new industrial techniques and a number of energy-related developments. Division of Mechanical Engineering. Inquiries: Ottawa/Hull (613) 993-2424 or other office *see* Part II *under* Vancouver.

**National Research Council (continued)****NRC 21**

Medical and surgical technology: the Council conducts research in the technology of control systems and medical and surgical instrumentation. Division of Mechanical Engineering. Inquiries: Ottawa/Hull (613) 993-9208.

**NRC 22**

National Aeronautical Establishment pursues research and development objectives in support of the aerospace industry; it is responsible for the maintenance and operation of the major aeronautical research facilities; it conducts research in the areas of transportation lighting and visibility, motor vehicle safety and system dynamics. Aeronautical aerodynamics is also extended into wind energy and industrial aerodynamics; the theory of aircraft structural analysis by numerical methods is used for civil and marine structures; and trace vapour analysis techniques, developed to counter the threat of aircraft sabotage, are modified for pollution detection. National Aeronautical Establishment. Inquiries: Ottawa/Hull (613) 993-2450 (general); (613) 993-2469 (aircraft safety research); (613) 993-2450 (motor vehicle safety research).

**NRC 23**

Physics: the Council is responsible for research into selected areas of physics; maintenance of Canada's reference measurement standards (time, length, mass and temperature); calibration of measuring instruments for industry, hospitals, government and universities; designs for industrial products and scientific advice to government and universities. Inquiries: Ottawa/Hull (613) 993-1208.

**NRC 24**

Pollution studies: the Council publishes scientific criteria for environmental quality and provides information services on pollution research. Division of Biological Sciences. Inquiries: Ottawa/Hull (613) 996-6810.

**NRC 25**

Prairie Regional Laboratory: the laboratory carries out agricultural research in the areas of chemotaxonomy, protein crop development, plant cell culturing and insect studies. Inquiries: Saskatoon (306) 665-4191.

**NRC 26**

Program for Industry/Laboratory Projects: the Council is prepared to assist the transfer of technology to Canadian industry by either entering into research contracts or by contribution agreements. Projects arising from research developed in the NRC and other government research laboratories that could lead to commercial successes may be supported financially by this program. Guidance is also provided in the identification, licensing and development of technologies. Inquiries: Ottawa/Hull (613) 993-0357; 993-0695.

**NRC 27**

Technical Information Service (TIS): this industrial troubleshooting service provides assistance to industries in Canada, with a strong emphasis on small- and medium-sized firms. TIS acts as a general engineering department to industries lacking sophisticated technical resources. A firm basis for technology transfer is provided by staff possessing long experience in this activity who maintain close liaison with client firms. In addition, the Science and Engineering Student Program (SESP) provides assistance to firms seeking solutions to short-term scientific, engineering and technological problems with the use of inplant university or technical college students, under the supervision of professional personnel. Inquiries: Ottawa/Hull (613) 993-1753; for other offices see Part II under Kingston (Ont.), London (Ont.), Montréal, Québec, Thorold (Ont.), St John's, Winnipeg, Don Mills (Toronto).

**NRC 28**

Western Laboratory: research and development are carried out in the areas of tribology (friction, wear and lubrication), computer aided manufacturing micro processors and small scale technologies. Inquiries: Vancouver (604) 732-4471.

## **Natural Sciences and Engineering Research Council Canada (NSERC)**

Montréal Road  
Ottawa, Ontario  
K1A 0R6

Information: Ottawa/Hull (613) 993-3659.

### **NSERC 1**

The Natural Sciences and Engineering Research Council promotes and assists research in the natural sciences and engineering other than the health sciences, and advises the Minister of State for Science and Technology. Through its program of scholarships and grants in aid of research the NSERC supports excellence in research for the creation of new knowledge in the natural sciences and engineering; promotes and supports the development of research in selected fields of regional and national importance; and assists in the provision and development of highly qualified manpower. NSERC grants and scholarships are intended primarily for university researchers and students.

**Part II  
Federal Government  
Offices Throughout  
Canada**

## **Part II Federal Government Offices Throughout Canada**

### **Explanatory Note**

Part II of the *Index to Programs and Services 1982* contains a listing of all federal government offices in Canada to which members of the public have direct access. The list is broken down into the twelve provincial and territorial sections of the country, arranged alphabetically from Alberta to Yukon Territories. The office addresses are listed alphabetically by department within each town, also arranged alphabetically. The addresses include, wherever possible, the department's name, branch or division name, street address, postal address, postal code and telephone number.

Following the guidelines laid down by the Canadian Permanent Committee on Geographical Names, the alphabetical arrangement of town and city names is by letter: for example, Fortune comes before Fort Vermilion; Hunts Point before Huntsville. Towns beginning with Saint, St, Sainte, Ste are all interfiled alphabetically by letter, with the contractions being treated as if they were spelled out; for example, St Davids precedes Ste Anne or Sainte Anne; Sainte-Véronique precedes Saint-Ulric.

Part II of the *Index* also includes a list, by town, of the authorized bookstore agents of Government of Canada publications, see page 475.

**Vancouver (Area Code 604)**

(including Burnaby, Coquitlam, New Westminster, Port Coquitlam, Richmond)

Vancouver telephone numbers beginning with the three prefixes, 544, 542 or 545 are government exchange numbers (GTA). For calling these numbers on the public telephone system (B.C. Tel.) use the following prefixes: GTA prefix 544 becomes 666; GTA prefix 542 becomes 732; GTA prefix 545 becomes 524. In all cases the last four digits remain the same.
